OFFICIAL RECEIPT

Dear Sir/Madam,

We herewith confirm having received your payment of USD 11 268 equivalent to CHF 9 779 and thank you for it.

This payment fully settles OHN's (Honduran Standards Organization) subscription for 2023.

It leaves a surplus of payment of CHF 429 which will be allocated, as a first installment, to OHN's subscription for 2024.

SETTLEMENT REPORT ISO MEMBERSHIP 2023

Dear Sir or Madam,

We confirm that we have received from your institution the amount of USD 11 268 for the payment of OHN's 2023 membership fee, as ISO correspondent member. OHN has been a member of this Organization since 2000, having access to the following benefits:

- Be an observer member in the ISO technical and policy meetings.
- Sell and adopt ISO international standards at national level (to date approximately more than 25000 normative documents)
- Participate in training programs and capacity building to improve OHN institutional capacities with ISO sponsorship (where applicable).

These member rights come with statutory obligations:

- Meet all of your obligations as an ISO member
- Follow ISO rules and decisions
- Pay your annual membership fees on time

As you may be aware the International Organization for Standardization (ISO) is a global network of national standards bodies. ISO's 169 members (one per country) are the foremost standards organizations in their countries. Through its members, ISO brings together experts to share knowledge and develop voluntary, consensus based, market-relevant International Standards that support innovation and provide solutions to global challenges. ISO has published more than 25 000 International Standards and related documents covering almost every industry, from technology to food safety, to agriculture and healthcare.

for Standardization

Chemin de Blandonnet 8
1214 Geneva, Switzerland

Standards impact everyone, everywhere. International Standards are critical to ensure that processes, products and services are fit for purpose, interchangeable, compatible and create better communication across borders. They contain world-class specifications for quality, safety and efficiency that bring trust and peace of mind. As such, International Standards support global trade, helping to drive inclusive and equitable economic growth, advance innovation, promote health and safety, and create the sustainable future we all want.

For the reasons mentioned above, we are pleased to include OHN as an ISO member.

Best regards,

Henry Cuschieri
