About the Index

The Ministry of Economic Development presents the Index of Honduras Exporters 2024 available to local and international buyers, providing detailed information on more than 500 Honduran companies. This document includes the leading products and contact details of each exporter, serving as an invaluable tool for building strong business connections.

In this Index you can also find a country profile of Honduras, export's main products and destinations, and the countries with which there is preferential access through the Free Trade Agreements and Treaties.

Discover the quality, reliability, and excellence of Honduran products and services just a few clicks away.

Welcome to the Honduras Exporters Index!

Country Profile

Honduras

Honduras exports more than **3,000 products**
to more than **125 countries**

Honduras an Open Economy

- Member of the World Trade Organization (WTO).
- Member of the Central American Common Market (CACM).
- Access to more than 1.5 billion consumers and 42 countries through their Free Trade Agreements.
- 93.4% of exports are covered by FTA tariff preferences.
- 11 Free Trade Agreements in force: USA, EU, UK, Canada, South Korea, Colombia, Peru, Chile, Mexico, Dominican Republic, Panama.

Ministry of Economic Development

Institutional Mandate

Economic development stimulus by means of the promotion of commerce and investment, providing market access, supporting the investment climate, facilitating business operations as encouraging the competitiveness of the domestic production.

Main Services

1. Management of foreign trade procedures (certificates of origin, licenses for import quotas, Central American Customs Declaration - DUCA-F)
2. Management of the Free Zones Regime, Temporary Import Regime, outsourcing of services and call centers.
3. Administration of the licensing regime for representatives, distributors and agents.
4. Supporting investors in the investment process in accordance with the Honduras' legal framework.
5. Promotion of the Honduran exportable supply of goods and services.
6. Support for the competitiveness of the productive sectors through the administration of the legal quality framework.

MESSAGE FROM THE PRESIDENT OF THE REPUBLIC OF HONDURAS

IRIS XIOMARA CASTRO

Dear Businessman:

Honduras is advancing on the path toward building an alternative economic system that guarantees equal opportunities and social justice for all. From my government, we work tirelessly to transform Honduras into a democratic-socialist state where human dignity and sovereignty prevail to forge an equitable and prosperous future for Hondurans.

We are committed to continuing the work to strengthen our economy, expand our exports, and make the most of the opportunities that the global market offers. Under a vision of solidarity, our government seeks to take advantage of the potential that foreign trade represents as an engine of development and progress for our economy.

We want new and better markets for our products. We believe that foreign trade can provide the potential of a win for all parties involved, with fair and equitable trade practices that allow each nation to benefit from its strengths and resources.

I invite you to explore Honduras through its products, a living testimony of the dedication of our people and the generosity of our land.

MESSAGE FROM THE MINISTER OF ECONOMIC DEVELOPMENT

FREDIS ALONSO CERRATO V.

Honduras is a country blessed with an unparalleled wealth of natural resources, a young population, and a culture of abundant ancestral traditions. Among these assets, the agricultural sector stands out as one of the most important engines of our economy, significantly boosting our exportable supply. Agricultural products such as coffee, bananas, tilapia, melons, shrimp, as well as the textile industry and the manufacture of ignition wiring, have placed in a prominent position in international trade.

The unwavering commitment of President Iris Xiomara Castro's government is to build an equitable and sustainable economic environment, fostering equality and social justice for Hondurans. In pursuit of this goal, the generation of new and better employment opportunities is one of our main priorities.

To broaden our commercial horizons and diversify Honduras' exportable offer, the Ministry of Economic Development is striving to attract investment and promote exports.

I cordially invite you to explore the Index of Honduras Exporters 2024, a priceless resource that provides contact details for over 500 Honduran exporting firms operating in 22 productive sectors.
